I've Been Loved

Lilly Million

I have been loved
I have been loved
Stillness
nothing but stillness
Except for one flame that makesÂ shadow move
And rain dancing out my room
Its Stillness but stillness
Nothing but stillness
Except my mind wont stop bracing
My head wonâ€™t stop pacing around
Thoughts of
you

Late night conversations tell me who you are
One late conversation night conversation
And I have been loved

Breaking
I finally startingÂ breaking
And my self smile at me the
Way she smiles at you
Your breath comes and goes
Itâ€™s fine if I moved
Cause breaking
I finally starting breaking

Late night conversations tell me who you are
One late conversation night
And I have been love
I have been loved

Have you ever fallen in your secret and no body knows
Iâ€™ve fallen in my secret and no body know
Where I go
when the lights off
Where I write these songs praying heaven down
when the lights off
Where I write these songs praying heaven down
Itâ€™s some where that Iâ€™m stillness
Nothing but stillness

Where Iâ€™m breaking
I finally starting breaking

Late night conversation tell me who you are
One late conversation night
And I have been love
I have been loved
