Destiny

Play

In the dream your on a ledge
Underneath you lye your hopes for tomorrow
To get over this edge
You need a leap of faith
You waited long enough
Got it out and now its time to embrace it
Show what your made of
Its in your hands your chance to take it
Destiny's everything your made of
Hiding behind what your most afraid of
Destiny gives you the strength to stand your ground
And you cant get lost here
Destiny your destiny destiny
You cant get lost
Destiny your destiny destiny
I was so terrified
Then realized on this journey
No matter where it leads
You'll get a chance to have
Take it

Destiny's everything your made of
Hiding behind what your most afraid of
Destiny gives you the strength to stand your ground
Your destiny is found
When you run around in circles
To find where you've been
But the far away that you can turn
Opens your hand
No matter what just take control
Cuz when your gone nobody knows
Its your destiny
Destiny's everything your made of
Hiding behind what your most afraid of
Destiny gives you the strength to stand your ground
Your destiny is found
Destiny's everything your made of
Hiding behind what your most afraid of
Destiny gives you the strength to stand your ground

Your destiny is found
My destiny is found(2x)
