We Will Sing

Ennis

Now we find ourselves together
Let us raise our voices and sing
Songs we'll have forever
Thought this world we're wondering
Sing together one and all

We will sing
We will sing of joy and sorrow
Of the past and love tomorrow
We will sing sing sing

The songs that bring us together
When our journey first begins
Are the ones that we'll remember
When the day comes to an end
Sing together one and all

We will sing
We will sing of joy and sorrow
Of the past and love tomorrow
We will sing sing sing

Lest the road that brought us together
Cross the long and lonesome miles
Rest easy in good company
Though it's only for a while
Sing together one and all

We will sing
We will sing of joy and sorrow
Of the past and love tomorrow
We will sing sing sing

Now we find ourselves together
Let us raise our voices and sing
Songs we'll have forever
Thought this world we're wondering
Sing together one and all

We will sing

We will sing of joy and sorrow
Of the past and love tomorrow
We will sing sing sing

We will sing
We will sing of joy and sorrow
Of the past and love tomorrow
We will sing sing sing
We will sing sing sing
