

Tidal (Royal Sapien Remix)

Imogen Heap

Before electric light,
You paddled through the soup of darkness as a crocodile,
Cherry picking in the river,
I would leave crisp note footprints at the bankside Watch it closely you will see it begin to move
Watch it closely you see it begin to flicker While we're here, let's see what happens
What we got, got, got to loose (what we got to loose)
While we're tidal and flexed on a full moon
It'd be a sure, sure shame to not to In every wonder what you are
I've blurted everything I know just for a piece of it
Flash frozen, patch worked and fallow
I sprung up in hearts and arrow superhighways Watch it closely you will see it begin to move
Watch it closely you see it begin to flicker While we're here, let's see what happens
What we got, got, got to loose (what we got to loose)
While we're tidal and flexed on a full moon
It'd be a sure, sure shame to not to Do what you feel just how you like
Nobody has to know
Nobody has to know Do what you feel just how you like
Nobody has to know Watch, watch, watch, watch, watch,
What we got to loose While we're here, let's see what happens
What we got, got, got to loose (what we got to loose)
While we're tidal and flexed on a full moon
It'd be a sure, sure shame to not to Do it for England
Do it for love
Do it for us
Do it for goodness sake
Do it for all the times
We wished we had Do what you want, just how you like
Nobody has to know
do what you want, just how you like
Nobody has to know.
