

# Shout It Out

## Slaughter

"Attention, for the next 4 minutes and 10 seconds  
This station will be conducting a test  
On the good times broadcasting system, that is  
So all you fine, outstanding citizens, come join us  
In a way bueno fiesta celebration  
It's guaranteed to be one wild ride"  
People try to rule my world  
'Cause they don't have nothing better to do--no, no, no, no  
Say what they want, but I don't care  
They sit and watch the 6 o'clock news  
[CHORUS 1]  
'Cause when we're out at night, feelin' right  
It looks like we're livin' for free  
We just turn up the music louder  
Then we scream it up and down your street  
Up and down your street  
[CHORUS 2]  
You gotta shout it out  
Shout, shout it out  
Tell them what's on your mind and what it's all about  
Shout, shout it out  
Come on everybody, you gotta shout it out  
Come on and shout it out  
Making music is how I live  
You know I like to hang out on the town  
I said come on little sister  
Don't you see what you're missin'  
There ain't no one to bring us down  
[CHORUS 1 & 2]  
Baby I'll show you the way  
If you'll just reach out and take my hand  
If you speak of the words that say how you feel  
Just let your words carry the dreams that you have deep inside  
Come on and shout it out  
[CHORUS 2]  
"You know it's times like these  
Are the most excellent time of our lives  
And I just have to say it's great to party with you  
C-ya"
