Strike

Primal Fear

I've seen the lightning
Can't wait for the thunder to roar
This is my battle
For honor and glory will soarAfraid of my name
They shatter with pain
The army of horror
Is getting them allStrike - and take no prisoners
Strike - holier than thou
Strike - without exception
Strike - holier than thouWith hate and anger
We're standing to counter revenge
There is no mercy
Consistently in every senseOpponents beware
There's nothing to share
Afraid of my name
You'll shatter with painStrike - and take no prisoners
Strike - holier than thou
Strike - without exception
Strike - holier than thouInvasion rolls
We're taking all over
With heart and soul
We'll stand our manStrike - and take no prisoners
Strike - holier than thou
Strike - without exception
Strike - holier than thou
