

Strike

Primal Fear

I've seen the lightning
Can't wait for the thunder to roar
This is my battle
For honor and glory will soar
Afraid of my name
They shatter with pain
The army of horror
Is getting them all
Strike - and take no prisoners
Strike - holier than thou
Strike - without exception
Strike - holier than thou
With hate and anger
We're standing to counter revenge
There is no mercy
Consistently in every sense
Opponents beware
There's nothing to share
Afraid of my name
You'll shatter with pain
Strike - and take no prisoners
Strike - holier than thou
Strike - without exception
Strike - holier than thou
Invasion rolls
We're taking all over
With heart and soul
We'll stand our man
Strike - and take no prisoners
Strike - holier than thou
Strike - without exception
Strike - holier than thou
