

# Honest Man

## My Morning Jacket

Try to walk this earth an honest man  
But evil waves at me its ugly hand  
The radar watches me from above  
Shouting down I hope you make it on this earth  
Sometimes this world will leave you, Lord  
Kickin' and a screamin', wonderin'  
If you'll see the next day through But as for me I do believe  
That good luck comes from tryin'  
So until I get mine  
I'll work me the whole day through
