

# Next to Me

## Paperdeer

Say that you want me  
Say that you need me for yourself  
Diving in water,  
I see your body next to me You spin me round, around-around,  
A whole new way to see your face  
You spin me round, around-around,  
A whole new way to see your face Say that you want me  
Say that you need me for yourself  
Diving in water,  
I see your body next to me See your body next to me  
See your body next to me  
See your body next to me  
See your body next to me  
I see your body next to me  
See your body next to me  
See your body next to me, yeah
