

# Milestones

## Miles Davis

Let him blow it  
let him play it  
let him show his backLet his lips sore  
let them bleed now  
blondes and brunettesFor how many  
miles he'll walk to  
find a place to rest?And how many fights  
he'll fight to  
prove that he's the best?It's the tombstone  
of the milestones  
or is it a throne?Prince of darkness  
it's so hard to  
hear some better blow...For how many keys  
the Cs and Gs  
he'll play along?What is wrong?  
What if his life was  
nothing but a song?...
