

# Carbon Copy Elitist

## Handguns

I don't wanna talk about all your favorite records  
and I don't really care what bands you think are better

You're just another hypocrite  
In a room that's filled with idiots  
You and I both know it (FUCK!)

How can you expect to grow  
When vanity's all that you know?  
Save your breath and swallow your pride  
You won't go far with that state of mind (GO!)

WHOA

Yeah, you got in on the guest list  
You know you couldn't resist it  
The idea of another empty friendship  
and I hope it's worth it
