

# Moan

## Mint Condition

I feel the heat emanating/ Flickering shadows frame your skin  
Sensual aurora of your body/ Like sweet incense I breathe you in  
Tracing paths of anticipation/ As you move my hand along your thigh  
Watchin your eyes casing my body/ Honey you know you got me highHOOKSo bring it on girl/ And we can get  
it on girl  
Ill do whatever I need to do lady/ To make you moan girl  
Wanna hear you call my name/ Cause then Ill know girl  
That Im doin it right for you honey/ When I hear you moan girl2nd verseYou know your so intoxicating/  
Chemistry way off the charts  
You got me jonesing for you honey/ The way you love me be a work of art  
Awww Girl just let me put it to you/ Whatever you want thats alright  
Be getting it on like Kama Sutra/ & you know I know just what you likeHOOKBRIDGEThere aint no need in  
us tryin to shake it/ Girl you know just how we do  
No more teasing, no more playin/ Time for you to sing your song  
Moon to morning long
