

Nonsense

Neurosis

Mislead all along from start to end
What creates this riddance of guilt ?
 A little here, none over there
 What more is said ?
 The door is shut from the inside
 But who's inside the door ?
 New time, wrong place, wrong face
 To get over there
 Forever spinning in faith
 Unload, leave, state the law
 Expect the rest
 Stumbling down to grovel with the rest of us
 Another life lost
 Just wanted to be
 Not too much
 Fall off the top and splash when you fall
 Eating the beaten path
 Taught the ways of self-destruction
 Questioning to the last
