Sound System

OPM

Now wait wait wait Hold on now a minute I'd like to say something I just can't forget Since the day I was brought into this world I was made to bless the boys and girls With the beat from the past I know the beat is drastic If you step up Then you're gonna get you're ass kicked Blasted Now we're doing our time But the music of Jamaica always makes me feel fine We gonna grind And wind up your way Tell the DJ he better pump up the base Tell the DJ she better pump up the base And when we hit the town we gonna mosh up the placeHooooorah round my left side And Hooooorah round my right This is how we rolling when we rolling through the night Singing Sound system in my backyard tonight Everybody's moving with me up all night Turn up that volume lads Wake up the town Police men come but he can't shut us down No noNext stop Now bump up the style (What) Bump up the town If ya coming around then we gonna get down Talk Possa (????) Well ya better back it up Coz I got the full form in the back of my truck And if you wanna bring it on Then its gonna get fucked I said you wanna get down Then its gonna get fucked You need a hit (ahh)
