Bend

Shelby Lynne

Here's your invitation
For your considerationNothins' easy, we'll go slow
I'll never ask for anything more
Than you can give me in return
We'll never know for sure
What we will find if we don't try
On the other side
Oh, we'll take our timeBend just a little bit
Break just a little bit
Bend just a little bit
Oh, get rid of itBend just a little bit
Break just a little bit
Bend just a little bit
And I won't let you fall, noLet's have a conversation
Talk about our situationEmbrace the night, don't let go
No one else has to know
Understand a little more
What feelin' somebody is good forStay with me the whole night through
There's nothin' good as lovin' you
When daylight breaks I'll love you more
Than I did beforeBend just a little bit
Break just a little bit
Bend just a little bit
Oh, get rid of it babyBend just a little bit
Break just a little bit
Bend just a little bit
And I won't let you fall, noThere's no expectations
Just give into temptationBend just a little bit
Get rid of it babyBend just a little bit
Break just a little bit
Bend just a little bit
Oh, get rid of it babyBend just a little bit
Break just a little bit
Bend just a little bit
And I won't let you fall, noBend just a little bit
Break just a little bit
Bend just a little bit
Get rid of it babyBend just a little bit
Break just a little bit

Bend just a little bit
And I won't let you fallBend just a little bit
Break just a little bit
Bend just a little bit
And I won't let you fallBend just a little bit
Break just a little bit
Bend just a little bit
And I won't let you fall
