

Carousel

Paper Route

Verified correct by Andy Smith, a past member of this band.

You and I are gonna get it right
Don't let me go
It takes two to make a leader but
One has to follow
Help me, help me understand
What we've become
We fell apart and then proceeded to
Both play the victim

On and on and on we go
Just like a carousel that's lost control
We don't know why, we don't know why
We go, we go, we go in circles

I want you more than anything
Just as you're leaving
For every wound that's an apology
That's lost its meaning
You and I, I think we're better off
Without each other
The last ride, the unavoidable
Keeps getting farther

On and on and on we go
Just like a carousel that's lost control
We don't know why, we don't know why
We go, we go, we go in circles
On and on and on we spin
To find an end where we begin
We don't know why, we don't know why
We go, we go, we go in circles
