## Skincage

When all you have's a hammer  
All you see is nails  
When all you have's a hammer  
And when all else fails  
Hit the nails!When all you have's a buzz-saw  
All you see is wood  
When all you have's a buzz-saw  
You just wish you could  
Yeah, you would!When all you have's a lighter  
All you see's a fuse  
And when you see it burning  
You ain't got nothing to lose!When all you have's a shovel  
All you see is graves  
When all you have's a shovel  
In hollow pits they will be saved  
Light the fuse!
