

You Give Me Something

Jamiroquai

When I met you, you were so unique
You had a little thing I'd love to keep
And every movement carried much mystique
I knew right then I'd carry on
To you I knew my heart belonged
You know you, you give me something
Something that nobody else can give
And my heart, started thumpin'
You know now, you're the one I truly know I dig
Like the sunbeams from a perfect summer day
Heaven only seems a step away
When I'm with you, I just celebrate
I'm hoping my message gets through
There's never been someone like you
I had nobody, but on you I lean
'Cause you got these little things that I
I know I've never seen
You know now, you, you give me something
Something that nobody else has got
And this love, that I've been wanting
Oh baby's turning out to be too fast to stop
You know now, you give me something
Something that nobody else can give
See my heart has started thumpin'
You know babe, you're the one I truly know I dig
Will you give me something?
Will you give me something?
Will you give me something?
Will you give me something?
Will you give me something?
Will you give me something?
Will you give me something?
You give me something that nobody else can give
You give me something that nobody else can give
Will you give me something?
Will you give me something?
