

# See You

## Dinosaur Jr.

Hear me out, bring it right away  
I don't doubt, it's what you meant to say  
Far enough, let's take a few things back  
All my love, I'm about to crack  
Didn't see you for a while  
Didn't notice it for quite some time  
See me off, gather all your stuff  
Not enough but that's all we got  
Tell me why when I'm giving in  
It's alright, I still want a friend  
Can you tell me where to be?  
Do you know what this all means to me?  
The intention's hard to know  
And I don't want what you just let go  
I've gone overboard, can you reel me in?  
It's a lot to know and I can't begin  
Had enough of what I knew  
Had enough to know that it's not true  
Hear me out, I'm about to fade  
I've no doubt, you meant that way  
There's a place we don't wanna go  
Does it taste like you ought to know?  
Didn't see you for a while  
I've been so wrapped up for quite some time  
Can you tell me who I'll be?  
Do you know what this all means to me?  
Can you get me out? Can you pull me through?  
And if there's a doubt it's what I've got to do
