

Good Together (Bucket and Chicken)

SHeDAISY

You've got the bucket, baby I got the chicken
You've got the Smith and a Wesson and I got the ammunition
Maybe we could shoot the town or sit around finger lickin', yeah
Alone we're not half bad but we could be a whole lot better
Anybody knows us, knows we're good together
Just a little sliver of sunlight in stormy weather
Like a tear in my beer, we're good together, good together
You're the pesky little fly, I'm the pink plastic swatter
You're a back seat kinda guy and I'm the Bishop's daughter
A steamin' jalapeno, think I need a drink of water
Alone, alone we're not half bad but we could be a whole lot better
Anybody knows us, knows we're good together
Just a little sliver of sunlight in stormy weather
Like a tear in my beer, we're good together, good together
Let's have a little mixer, a little pick her upper
And all night hold me tight candlelight supper
No Daddy, no Mama, no sister, no brother
Just you and me, a pod and a pea we compliment each other
Yeah, yeah we're good together, we both
Come on baby turn me on I'll turn up the radio
Beneath the velvet Elvis we can dance just like Jessco
Twirl me like a trailer park in a tornado
Alone, alone we're not half bad but we could be a whole lot better
Anybody knows us, knows we're good together
Just a little sliver of sunlight in stormy weather
Like a tear in my beer, we're good together, good together
Good together, yeah
