

# Long, Lonesome Highway Blues

## Steve Earle and the Del McCoury Band

Bound down that long, lonesome highway  
As far as I can ride 'til I outrun your memory  
I can't go home 'cause I can't face another day alone  
Without you here this ain't no place for me  
I want to start all over new  
But I can't hide these lonesome highway blues  
Bound down that long, lonesome highway  
As far as I can ride 'til I outrun your memory  
Bound down that long, lonesome highway  
As far as I can ride, just wanna go to someplace you won't be  
And I'm movin' on to a new place and hold my head up high  
Where no one knows what you did to me  
A thousand miles between us now  
Got to steal that blues, them blues'll track me down  
Down that long, lonesome highway  
As far as I can ride 'til I outrun your memory  
Bound down that long, lonesome highway  
As far as I can ride 'til I outrun your memory  
I can't go home 'cause I can't face another day alone  
Without you here this ain't no place for me  
I want to start all over new  
But I can't hide these lonely highway blues  
Bound down that long, lonesome highway  
As far as I can ride 'til I outrun your memory  
'Til I outrun your memory
