## The Renegades

I am electric with a bottle in me  
Got a bottle in me  
And glory be, these fuckers are ignoring me  
I'm from another century I am a preacher when I've got it on me  
And I've got it on me  
And glory be these fuckers are ignoring me  
We never learn from history Hey, I am the boy who loved her so in every song  
And I design that little mystery on your tongue  
I've broken jaws protecting laws to keep you free  
I've made your day so take a seat by me I am an old tree, gonna' talk my jaw free  
Someone come and get me  
Another night beside myself would finish me  
Give us G&T and sympathy I am the die hard with an empty dance card propping up a young bar  
I'm pouring oil in double time upon the troubled rising tide inside of me  
Upon my history Hey, I am the boy who loved her so in every song  
And I design that little mystery on your tongue  
I've broken jaws protecting laws to keep you free  
I've made your day so take a seat by me Hey  
Hey  
Hey  
Hey Hey, I am the boy who loved her so in every song  
And I design that little mystery on your tongue  
I've broken jaws protecting laws to keep you free  
I've made your day so take a seat by me
