On My Radio

The Selecter

I bought my baby a red radio
He played it all day a-go-go a-go-go
He liked to dance to it down in the streets
He said he loved me but he loved the beatBut when I switch on I rotate the dial
I could see it there driving him so wild
I bought my baby a red radio
He said he loved me but he had to go(Chorus):
It's just the same old show on my radio
It's just the same old show on my radio
It's just the same old show on my radio
It's just the same old show on my radio
On my radio on my radio on my radioI bought my baby a red radio
He played it all day a-go-go a-go-go
He liked to dance to it down in the streets
He said he loved me but he loved the beat(Chorus 2x)It's just the same old show on my radio
It's just the same old show on my radio
It's just the same old show on my radio
It's just the same old show on my radio...I bought my baby a red radio
A red radio a-go-go a-go-go
A red radio I rotate the dial
A red radio driving him so wild
A red radio he had to go
