Stay in Bed, Forget the Rest

Deee-Lite

When you bite your bottom lip I wanna do back flips
Kiss your belly button and show you some good loving
It wouldn't matter if we got arrested
Our love is time proven and perfectedI like it when you show me
The endurance of a tantric yogi
You got your chocolate in my peanut butter
Spreading love with your eyelash flutterAlways ready when you hold me steady
Unplug the phone
Press my buzzer and ring my bell
Just me and you, pretending we're not homeYou make me wanna write these crazy love poems
Can't get no rest 'cause you know I'm with the best
Always ready when you hold me steady
Keeping me on the vergeJust in time to stop while we still got the urge
Give me your spice, snuggle up to me, it feels nice
Laying on the carpet when we're feeling close knit
Deeply eternal like a secret transcriptBodies twitching so bewitching
It's a fact I react every time we make contact
Feeling free as graffiti
Fall asleep with paradise dreams of TahitiYou make me lose my mind
Each and every time, time
You make me lose my mind
Each and every time, timeYou make me lose my mind
Each and every time, time
You make me lose my mind
Each and every time, timeStay in bed, forget the rest
Stay in bed, forget the rest
Stay in bed, forget the rest
Stay in bed, forget the restStay in bed, forget the rest
Stay in bed, forget the rest
Stay in bed, forget the rest
Stay in bed, forget the restYou make me lose my mind
Each and every time, time
You make me lose my mind
Each and every time, timeYou make me lose my mind
Each and every time, time
You make me lose my mind
Each and every time, timeAlways ready when you hold me steady
Always ready when you hold me steady
Always ready when you hold me steady

Always ready when you hold me steady
