Into the Future

Bad Brains

Crazy, your main team,
Only be thankful, only be thankful.
I caught you with heart in mind and deep within
Locked your heart in mine with the wicked reacted.Into, into, into the future,
Into, into, into the future.The cradences of your edible locked it
I took your heart in mine, intergalactic.
We prayed to cease out of your intergalactic.
I locked your heart in mine, intergalactic.Into, into, into the future,
Into, into, into the future.Might have crushed again,
With that crash at dawn.The cradences of your edible locked it
I took your heart in mine, intergalactic.
The cradences, the cradences.Into, into, into the future
Into, into, into the future.
