Don't Run Away

Kill The Alarm

Baby come over, come close and tell me what's on your mind
We can get over anything in good time
Stack up the issues, piled up so high
I stood outside, waiting for your red lights to change
Caught in a landslide, I'd still yell out your name
We push our limits to the limit
Pulling ourselves deeper down in it
Don't let go, don't let go, don't let goDon't run away
You can run but never hide the pain
When your heart keeps racing but you can't keep up the chasin'
Don't turn your back on us
Follow me
I will teach you how to live life free
Come on baby we're addicted
Me and you we're on a mission
Don't turn your back on usBaby look out there, we got the whole world to explore
Let's do it together, figure out what's in store
Learn to be reborn, Learn to be complete
Don't let go, don't let go, don't let goDon't run away
You can run but never hide the pain
When your heart keeps racing but you can't keep up the chasin'
Don't turn your back on us
Follow me
I will teach you how to live life free
Come on baby we're addicted
Me and you we're on a mission
Don't turn your back on usCome on baby reach up just a little bit higher
(higher, higher)
Grab a hold I won't let go
Don't look down just keep on climbing
(climbing)
When your at the top you'll know
'Cause I'll be right hereDon't run
Don't run
When your heart
Don't turn your back on us
Follow me
I will teach you how to live life free
Come on baby we're addicted

Me and you we're on a mission
Don't turn your back on us
