With This Ring

Sawyer Brown

I'll say my peace and I'll play my hand
And maybe this way you'll understand
I'm short on words I was raised that way
But I still mean all the ones I sayAnd with ring I promise you
Everything that I have or can do
There's so many roads that love can run
But here in my heart you're the only oneI do all right here on my own
But you give me things I've never known
Oh here I am getting up my nerve
It may not be all that you deserveAnd with ring I promise you
Everything that I have or can do
There's so many roads that love can run
But here in my heart you're the only oneAnd with ring I promise you
Everything that I have or can do
There's so many roads that love can run
But here in my heart you're the only oneHere in my heart your the only one
