Breakaway

Music Themes Players

I, I've got to break away
'Cause no one out there
Listens to a single word I say
I, I've got to break away
'Cause no one out there
Listens to a single word I say, say, say
I, I've gotta get away
I'm living the same old shit
Each and every damn day
I, have gotta get away
I'm living the same old shit
Each and every damn day
I'm on fire
And I've got to, got to
I'm on fire
And I've got to, got to
I've had enough of this
Got to break it through
I, I've got to break away
'Cause no one out there
Listens to a single word I say
I, I've got to break away
'Cause no one out there
Listens to a single word I say, say, say
I, I've gotta get away
I'm living the same old shit
Each and every damn day
I, I've gotta get away
I'm living the same old shit
Each and every damn day

I'm on fire
And I've got to, got to
I'm on fire
And I've got to, got to
I'm on fire
And I've got to, got to
I'm on fire
Break out

I'm on fire
Break out
I've had enough of this
Got to break it through
Got to leave all this trouble
Living life on the double
And my mind's going mad
In emotional muddle
Can't see, can't think
All trapped in a bubble
All I want is to
Break out
Break out, break out
Break out, break out
Break out, break out
Break out, break out
Break out, break out
Break out, break out
Break out, break out
And you can't put me out
I've had enough of this
Gotta break it through
