No Mistakes

Patty Smyth

The summer is gone, I can't believe
It went so fast
Why do only the cold and lonely times
Seem to lastNow it's late at night, I watch you sleepin'
I wanna wake you up
And tell you, I'm sorry though I know
I can't make it upAnd I made my mistakes now, baby
But I did the best I could
It takes what it takes and sometimes
It takes longer than it shouldTo just live the kind of life that we both
Have been dreaming of
There are no mistakes in loveI walk through a fire in my dreams
Just to pull you through
Though when I'm awake somehow it seems
I'm just so hard on youBut baby, a change has got to come
And I can't see
After another winter's gone
Well, who's gonna rescue meThere are no mistakes now, baby
We did the best we could
It takes what it takes and sometimes
It takes much more than it shouldTo just make the choices that we both
Have been dreaming of
There are no mistakes in loveThe nights are much colder now
And I feel the need to have you near
Maybe we could start all over
I feel a change in the airThere are no mistakes now, baby
We do the best we can
Just takes what it takes and sometimes
It's so hard to understandAnd just take the chances that we all
Have been dreaming of
There are no mistakes in loveThere are no mistakes in love
Oh, there are no mistakes in loveI feel a change in the air
I feel a change has got to come
It's in the air, it's everywhere
Tell me that you feel it too, tell me that you feel itThere are no mistakes
We made no mistakes
