

# White Light

## Young and in the Way

There's a white light that carries me home  
Helps me focus when I am alone  
Keeps on teaching me how to be loved  
And to love, and to love  
Onward to forever  
Our minds belong together  
She's the good light that carries me on  
Helps me focus on where I've gone wrong  
Now you've reached me  
It's time to forgive and forget, and forget  
Onward to forever  
Our minds belong together  
Onward to forever  
Our minds belong together  
Tonight, this land  
Belongs to me  
The shifting sands  
The shining seas  
Onward to forever  
Our minds belong together  
Onward to forever  
Our minds belong together  
Tonight, this land  
Belongs to me  
The shifting sands  
The shining seas  
Won't you help my soul to grow?  
To heal, it's all that I know
