

Last One to Die (Acoustic)

[Rancid](#)

Everybody say we gotta take a chance
And tell me what the hell went wrong ?
We only listen to the words that we sing
Now a million are singing along(Chorus)
We got it right, you got it wrong
We still around (Last one to die)
We're going up, you're going down
We still around (Last one to die)No rules in a scandalous world
We're gonna have a path to find
We sit on the top of the world
And we're proving it every night(Chorus)Thru the storms and the gigs
And the good and the bad
There ain't no doubt
We knew from the very first show
What it was all about(Chorus)
