

# Blood On My Name

## The Wright Brothers

There's a reckoning a-coming  
and it burns beyond the grave  
its lead inside my belly  
cause my soul has lost its way

Oh, Lazarus

How did your debts get paid

Oh, Lazarus

Were you so afraid  
When the fires, when the fires have surrounded you  
with the hounds of hell coming after you  
I've got blood, I've got blood on my name  
when the fires, when the fires  
are consuming you

and your sacred stars won't be guiding you

I've got blood, I've got blood

blood on my name  
Not a spell gonna be broken

with a potion or a priest

When you're cursed you're always hoping  
that a prophet would be grieved

Oh, Lazarus

How did your debts get paid

Oh, Lazarus

Were you so afraid  
Can't you see I'm sorry  
I will make it worth your while

Made a dead mans money

you can see it in my smile

Oh, Lazarus

How did your debts get paid

Oh, Lazarus

Were you so afraid  
When the fires, when the fires have surrounded you  
and the whole wide world coming after you  
I've got blood, I've got blood on my name  
when the fires, when the fires are consuming you  
and your sacred stars wont be guiding you

I've got blood, I've got blood

blood on my namemmm-mmm

it wont be long

til I'm dead and gone

it wont be long

til I'm dead and gonewatch the fires rise under my skin

down to the bone  
scorching my soul  
nowhere to run  
nowhere to run  
nowhere to run When the fires, when the fires have surrounded you  
with the hounds of hell coming after you  
I've got blood, I've got blood on my name  
when the fires, when the fires are consuming you  
and your sacred stars won't be guiding you  
I've got blood, I've got blood on my name When the fires, when the fires have surrounded you  
and the whole wide world coming after you  
I've got blood, I've got blood  
blood on my name
