

# So We Can Stay Alive

## Garbage

Imagine this: we make things right  
So beautiful, we cling tonight  
To all our dreams, we pin them up  
We lose our minds if we lose our hope  
We swear to change, but we bottle it  
Stick to our guns and all our sins  
We bury fear, we drink to it  
We might cheat death if we worship it So we can stay alive  
Our sex, our power, our drive  
We lose ourselves inside  
So we can feel alive You're the one who should be on trial  
For all your hate and your denial  
Be careful what it is you break  
Every broken thing can't be fixed  
And all those fragile things we are  
They find their voice, they find their power  
They take a grip around your throat  
They keep squeezing till your life runs out So we can stay alive  
Our sex, our power, our drive  
We lose ourselves inside  
So we can feel alive (Masochistic victim sadist  
Victor vanquish valour sadness  
Lust and love, our lives, our blindness) All alone we fight the fear (we can feel alive)  
By ourselves in every way (we can feel alive)  
All our lust, all our greed  
All our hate, we're on our knees  
Hear us beg, hear us pray (we can feel) We can stay alive  
We can stay alive  
We can stay alive  
We can stay alive  
We can stay alive

Songwriters
