Your Little Problem

My Superhero

what in the world are you doing
you said to me that you were leaving
you said it's a problem that you're having
well i can't go where you have gone so
what in the hell are you thinking
i don't know
you said to me that you've been thinking
but i can't tell when you would be talkin'
you said it's a problem that you're soling
but i can't say what you have said so
what in the hell are you saying
i don't know
you will not be alone...
living out your dreams
what in the world are you thinking
you're sayin' to me that you are leaving
i guess it's that problem that you're solving
well i can't go where you have gone so
what in the hell are you thinking
i don't know
you will not be alone...
