

# Carnival Bizarre

## Cathedral

Ride with me on a shooting star  
Through galaxies of death, we chase  
Skeletal king of paradise  
Cosmic crown is the jewel you wearCarnival bizarre  
Freaks and lepers step right up  
Circus of macabre  
All the devils are rockin' hardSilver mountain of razor blades  
The masses ascend to a golden lie  
Evil angels in bloody lakes  
Await to celebrate their fateCarnival bizarre  
Freaks and lepers step right up  
Circus of macabre  
All the devils are rocking hardMetamorphosed  
From the ghost machine we fly  
Through circles of gold  
To our celestial throneGalaxies have died  
Dragons breath has frozen  
Chaos in serpent forms  
Manifest the universeCrystal phoenix of midnight sky  
Carry the burning souls away  
Legions of frost we leave behind  
Celestial gardens of love we shareCarnival bizarre  
Freaks and lepers step right up  
Kingdom of macabre  
All the devils are rockin' hard  
I freak out of the mellow manCosmic psychonaut  
Earth into skies last port  
Space turning over now  
We elevate our thoughts  
Wilderness as we abort, oh yeah
