

Inbred

The Skallywags

You selfish git, your life is shit
And look at what you've made of it
You'll be dead and disappointed, you'll be dead and disappointed,
You'll be dead and disappointed,
You'll be dead and disappointed, you'll be dead and disappointed

Temptations, fixations, you're destroying yourself
Hesitation, for a nation, that is sat on the shelf
Temptation and fixation, you're destroying yourself
Hesitation, to a nation, that is sat on the shelf

Oh, what's the problem sir? I said
Cause you've been lookin' at the hat upon my head
Would you prefer me with a skin head?
My family were all inbred? And my top was made by Hackett instead?

How many times has it crossed your
Mind that you won't wake up when you die?

You'll be dead and disappointed, you'll be dead and disappointed,
Said you'll be dead if you don't get it sorted,
You'll be dead and disappointed, you'll be dead and disappointed

Temptations, fixations, you're destroying yourself
Hesitation, to a nation, that is sat on the shelf
Temptation and fixation, you're destroying yourself
Hesitation, in a nation, that is sat on the shelf

Oh, what's the problem sir? I said
Here he goes, cause you've been lookin' at the hat upon my head
Would you prefer me with a skin head?
My family were all inbred? And my top was made by Hackett instead?
