

Sugar

Ladytron

If I give you sugar, will you give me
Something elusive and temporary
If I give you sugar, will you give me
Something elusive and temporary We got a signal to leave you alone
[Incomprehensible] leave you, [Incomprehensible] find you
If I give you sugar, will you give me
Something elusive and temporary If I give you sugar, will you give me
Something elusive and temporary
If I give you sugar, will you give me
Something elusive and temporary We got a signal to leave you alone
[Incomprehensible] leave you, [Incomprehensible] find you
If I give you sugar, will you give me
Something elusive and temporary If I give you sugar, will you give me
Something elusive and temporary
If I give you sugar, will you give me
Something elusive and temporary We got a signal to leave you alone
[Incomprehensible] leave you, [Incomprehensible] find you
If I give you sugar, will you give me
Something elusive and temporary
