# That's Beautiful To Me

## Jaron And The Long Road To Love

you were juliet and i was into you
and i asked you out till you couldn't say no and you finally felt it too.
i drove you down the boulevard, thats where you took my heart
and gave me yours instead and every day you find new ways to be beautiful
. you laugh at the garden that we grow in the lawn, drink coffee in the kitchen with no make up on.
sing all the wrong words to my favorite songs.
you're beautiful, and that's beautiful.
you got lines on your face from sleeping on me,
call me at work cause you lost your key,
go to buy a dog and you come home with three.
you're beautiful, and thats beautiful to me.
you turn every head when you walk into a room
but your kindess and your sweetned soul lingers like perfume.
babe you could have gone with romeo but you stayed with me instead.
and every day i find new ways that make you beautiful.
you say honey give me roses but dont buy red,
you need 46 pillows all over the bed.
guess every punch line before its said.
you're beautiful and thats beautiful.
whatcha doing with a guy like me?
you're so cool and im high tea.
i dont deserve to have a girl as beautiful as you.
ya you laugh at the garden that we grow in the lawn,
drink coffee in the kitchen with no make up on.
sing all the wrong words to my favorite songs,
you're beautiful, and that's beautiful.
you got lines on your face from sleeping on me,
call me at work cause you lost your key,
you go to buy a dog and you come home with three.
you're beautiful, and thats beautiful to me.
you're so beautiful, and that's beautiful to me.
