

Peace Sign (Acoustic)

Lights

If they take my hand
will it be to burn me or to say 'amen'
We beckon so we can make amends
And with the same flip of the hand we curse our friends Where its all a blur, you are the hard lines
And in the disorder, you are the peace sign Its getting hard to know
If im on the track or off the beaten road
When no truth ever easily shows
So i'll follow you no matter where you go And when it's all a blur, you are the hard lines
In the disorder, you are a peace sign
And when the riots stir, you are a sound mind
And in the disorder, you are a peace sign I cant tell if their laughing at me or with
me
All these hints and subtleties they got me on
my knees
Begging for serenity And when its all a blur, you are a hard line
In the disorder, you are the peaces sign
And when the riots stir, you are a sound mind
And in the disorder, you are the peace sign
And when its all a blur, you are the peace sign
And in the disorder, you are the peace sign
