More Than A Memory

Hoobastank

I've become tired of wasting my time
Thinkin' bout choices that I've made
Cuz I can't move forward while looking behind
The only thing I can to do now is change the way that I used to be
Cuz now it's seems crystal clear to me
Cuz you're so much more than a memory
Yes, you're so much more than a memoryIt wasn't fair for me just to go
Act like I knew what you've been through
Cuz I wasn't there and I'll never know
Couldn't see from your point of view
But I'm doing all I can
For you to see that I understand
That I understand
You're so much more than a memory
Yes, you're so much more than a memory
So don't close the door on what still can be
Cuz you're so much more than a memory...Please don't go!
Cuz I've finally know
That the past is gone
And I knew I was wrong
I was wrongYou're so much more than a memory (memory)
Yes, you're so much more than a memory (memory)
So don't close the door on what still can be
Cuz you're so much more than a memory...
Please don't go!
Cuz I've finally know
That the past is gone
And I knew I was wrong
Please don't go!
Cuz I've finally know
That the past is gone
And I knew I was wrong
I was wrong...
