Mama Donte

Misteur Valaire

Come along now and let's go to the party
What party? What time is it?
It's time to have a good timeEverybody likes to party
Maybe we can get down to the 1-2-3-
4 on the floor, swing like a door
Give me the most - come on, give me some more babyIf you want it you know you got it
Once you start it, just don't stop it
Ride the rocket, with the hips to hop it
Take that bottle - shake shake shake
Shake what your mama gave you
I'll be your banker, shake your money maker
I'll be your earth come on be my quaker
Show me some goodness - shake yaAll around, down to ground
Take that bottle and spin it round
