

Feel Good (feat. (hed) P.E.)

System of a Down

Ain't no more sunshine, just rain and cold suffering

Generation born to die with their eyes wide open

The clock strikes

The wrong rights

The mob rules

The second Armageddon, igniting the lit fuse

No turning back

Every soldier is on point

Ready to die, the confrontation coming, ready or not

It's on again,

It's time to say your prayers again

It's not the end, just the beginning of the end(Chorus)

But is it hard?

Yea, I can hold it down like that

But is it real?

Yea, You know I break it down like that

But is it rough?

Don't even try to front like that

I'm on fire baby, a big dog will hunt like thatAnother day, another buster wanna battle me

Another mama crying, now her baby is a casualty

I'm ready nigga, slice like a machete nigga,

got fatty nigga, never spend it on Betty nigga

I hit and run, never stressing to look back

When I look back, I think about the love I never had

Then I wake up, I get fucked up and I get even

Approach you from the front

While in your back a knife I'm leaving(Chorus)

But is it hard?

Yea, I can hold it down like that

But is it real?

Yea, You know I break it down like that

But is it rough?

Baby don't even try to front like that

I'm on fire dog, a nigga will hunt like thatThe sky is falling, I don't care

I just want to feel good

Her train's leaving, she don't care

She just wants to feel good

The world's dying, we don't care

We just want to feel good

It's all over, we don't care
We just want to feel goodHey, let me get some of that Jack Daniels
Let me check out some of that porno, dog
Let me hit that joint
No no no no no no don't take 'em off
Leave 'em on, leave 'em on
I like that shit
Now roll and like that shit
And get on with this shit
Come onNah! We can't compromise like that
Nah! We can't conform like that
I'm saying fuck you and fuck the norm like that
Revolt and transform like that
Make a difference
Have a motherfucking impact!It won't stop raining, its flooding, Revelation was all true
You drew first blood, Jesus is coming to take you
Coming to break you, make you just like new
Satan laughing, spreads his wings and gets a new tattoo
A new platinum chain, a new pinky ring,
The Rolex, the Benz, the huggy bear pimp thing
Nigga it's midnight, never forget where you come from
Keep your mouth shut
Back the fuck up
Watch what you doingPunk
Bitch
MotherfuckerWhat? Come on!(Chorus)
But is it hard?
Yea, I can hold it down like that
But is it real?
Yea, You know I break it down like that
But is it rough?
Don't even try to front like that
I'm on fire baby, a big dog will hunt like thatThe sky is falling, I don't care
I just want to feel good
Her train's leaving, she don't care
She just wants to feel good
The world's dying, we don't care
We just want to feel good
It's all over, we don't care
We just want to feel goodWe just want to feel good
We just want to feel goodWe just wanna feel good
We just wanna feel good
