

Gravity

[Matt Goss](#)

I've been lost in the water like a rolling rock
My heart always felt incomplete
Like someone out there's waiting for me
I always said that I would
(It's a song for my baby, It's a song. It's a song for my baby)
Wait a while, wait until perfection comes
Wait a while, wait until perfection comes, And it comes Gravity yeah it lets me fly
It keeps our love up in the clouds (Up in the clouds)
Gravity it feels good to fall
Into your life and solid ground
Ten minus touchdown, Ten minus touchdown Oh my God it feels exactly just as good as I thought
You dried the streets where there once was rain
Now I know that love can never come too late
I always said that I would
(It's a song for my baby, It's a song. It's a song for my baby)
Wait a while, wait until perfection comes
Wait a while, wait until perfection comes, And it comes Gravity yeah it lets me fly
It keeps our love up in the clouds (Up in the clouds)
Gravity it feels good to fall
Into your life and solid ground
Ten minus touchdown, Ten minus touchdown Yeah you complete my life, Yeah you complete my life
Yeah you complete my life, Yeah you complete my life Gravity yeah it lets me fly
It keeps our love up in the clouds (Up in the clouds)
Gravity it feels good to fall
Into your life and solid ground
Ten minus touchdown, Ten minus touchdown Gravity yeah it lets me fly
It keeps our love up in the clouds (Up in the clouds)
Gravity it feels good to fall
Into your life and solid ground
Ten minus touchdown, Ten minus touchdown
