

Every 6 Seconds

O-town

Every six sec sec seconds, seconds
Every six sec sec seconds
Baby, I can't stop, my mind from slipping
Every six seconds or less
Preoccupation with the opposite sex
And you're the one I blame for making me go missing
I think of you and drift away, fourteen thousand times a day
Victoria's secret I've been keepin'
And its getting harder all the time
I can't keep it undercover
I need your soft lips kissing mine
Every six seconds, my body starts begging
Your sweet thing is wrecking me
Until you give me some, ten times a minute
Six hundred times an hour, another cold shower
Until you give me some
(Until you give me some)
I picture you in red matte lipstick
Sponging all over me
Leaving a mark on my fantasy
Or swimming in water wearing nothing but moonlight
Both of us soaking wet
(Splash)
(Halfway to the towel, that's as far as we get)
Victoria's Secret I've been keepin'
(I've been keepin')
And its getting harder all the time
(Oh! Baby)
(All the time)
I can't keep it undercover
I need your soft lips kissing mine
Every six seconds, my body starts begging
Your sweet thing is wrecking me
Until you give me some, ten times a minute
Six hundred times an hour, another cold shower
Until you give me some
Every six seconds, my body starts begging
(Every six seconds baby)
Your sweet thing is messing me

Until you give me some ten times a minute
Six hundred times an hour, girl you got the power
(You got the power)
Until you give me some
Thoughts of you keep swimming through my brains
Baby night and day and night
Cannot concentrate on anything, but this urge I have inside
(Inside)
Every six sec sec seconds, every six sec sec seconds
Until you give me some
Every six sec sec seconds, every six sec sec seconds
Until you give me some
Every six seconds, my body starts begging
(Baby gotta give me some)
Your sweet thing is wrecking me
(Girl)
Until you give me some, ten times a minute
Six hundred times an hour another cold shower
(Another cold shower)
Until you give me some
(Come on)
Every six seconds, my body starts begging
Your sweet thing is wrecking me
(Keep on wrecking, keep on wrecking me)
Until you give me some ten times a minute
Six hundred times an hour, girl you got the power
(You gotta be with me)
Until you give me some
Every six seconds
