

Fragile

Trembling Blue Stars

All alone
I feel so fragile
So vulnerable For so long
I've been without a harbour
I've been without a harbour Just like anyone, I need someone, I need someone
Someone to face the world with
Someone to face the world with All I want in the world
Is to be held
Just like anyone, I need someone, I need someone
Someone to face the world with
I'm living in darkness
I need a sunrise
Bring on first light
Bring on first light
Bring on first light
Bring on first light
