## **Fragile**

## **Trembling Blue Stars**

All alone
I feel so fragile
So vulnerableFor so long
I've been without a harbour

I've been without a harbourJust like anyone, I need someone, I need someone Someone to face the world with

Someone to face the world withAll I want in the world

Is to be held

Just like anyone, I need someone, I need someone

Someone to face the world with

I'm living in darkness

I need a sunrise

Bring on first light

Bring on first light

Bring on first light

Bring on first light
