Chances

Kosheen

At first, it was clear, it was easy to see
Till you cursed and reversed
And you turned it on meLike a book, like a cover you were easy to readLike a clock, like a mother you were curiously freeStarring in a movie that was all about meYou're the twist in the ending of the faraway treeEverybody in the castle is fast sleep
Wake up, stupid beauty no time to be weakYou take chances with me
You take chances with me
You take chances with me
You take chances with me
Take your last libertyUnderneath the covers that you wear on a sleeve
Is a time and a place, everything that you leave
Trying to be clever, isn't pretty for me
Suffocating love, give me room to breathe
Stuck in a movie that is all about meLiving in fiction and escaping a dream
I thought you'd said you'd never had the measure of me
Get up, it's time to leaveYou take chances with me
You take chances with me
You take chances with me
You take chances with me
Take your last libertyWho's fault is it now?You take chances with me
You take chances with me
