

# Welcome2myworld

## Cold

Princess is gone, where did she go?  
Headlines today  
Majesty lost all her control  
King's on his way  
Up in the sky, Superman falls  
The witch gets away  
Welcome 2 my world  
Take my hand and come along  
John Lennon's singing Elvis songs  
New York brings their symphony  
In my back yard Sinatra sings for me  
Prince Charming pulls up on his horse  
Send him away  
Fantasies gone, no crystal ball  
Things never change  
Marilyn Monroe up in my room  
Sleeping away

Welcome 2 my world  
Take my hand and come along  
John Lennon's singing Elvis songs  
New York brings their symphony  
In my back yard Sinatra sings for me  
Welcome 2 my world  
Welcome 2 my world  
Take my hand and come along  
John Lennon's singing Elvis songs  
New York brings their symphony  
In my back yard Sinatra sings for me  
Take my hand and come along  
John Lennon's singing Elvis songs  
New York brings their symphony  
In my back yard Sinatra sings for me
