It's Like Me

Kutless

My conversation is leading nowhere
And we talk of God but still I don't share
So many times
That I just never saw the chanceIt's like me to never see
When it came, when it went, now it's gone away
It's so like me to never see
When it came, when it went, now it's gone awayThe phone rings with news that he's gone
Just the time I shared my heart was prepared
And another soul was won
So much truth to tell, I am so glad I saw the chanceIt's like me to never see
When it came, when it went, now it's gone away
It's so like me to never see
When it came, when it went, now it's gone awaySometimes I still never see
When perfect opportunities come my way
Would my care increase
If I truly believed that a life could be saved?It's like me to never see
When it came, when it went, now it's gone away
It's so like me to never see
When it came, when it went, now it's gone away
It's so like me to never see
When it came, when it went, now it's gone away
