Light Up Gold II

Parquet Courts

Twice in. comes knocking on my door She's spinning in a... fashion gazing before Sparkling recognition is to threw the dice first but I don't think of something Where is the curse becauseChorus: Light up gold was the colour of something I Was looking for Light up gold was the colour of something I Was looking forSteady was the pace that we're not doing this way Sitting like a miner in the consciousness to breath in the rivers from a. field Trying over something warm and real becauseChorus: Light up gold was the colour of something I Was looking for Light up gold was the colour of something I Was looking for Yeah light up gold was the colour of something I Was looking for Light up gold was the colour of something I Was looking for
